of active militia is encouraged or required than that of Montana, the offices and duties of quartermaster general, commissary general, inspector general, paymaster general and judge advocate general are united with and devolve upon the adjutant-general, with authority in him to appoint an assistant; and as there cannot be a well-ordered, active militia without an adjutant general, and as his report shows that the proper discharge of his duties require considerable time, attention and familiarity with those duties. I suggest that the offices above be combined, and that a salary be fixed for the adjutant-general and his assistant compensatory to the eral and his assistant compensatory to the services rendered.

MONTANA LIBRARY.

I submit with this communication to you the report filed with me of Hon. N. W. McConnell, chief justice of the supreme court, touching the care and supply of the McConnell, chief justice of the supreme court, touching the care and supply of the Montana library, and I invite your favorable action upon the suggestions and recommendations of that report. I mention the further fact that there are thurty-five hundred to five thousand volumes and publications of the miscellaneous part of the library, for the care and preservation of which sufficient provision is not made. I invite you to come and see for yourselves the condition it is in, and to adopt the proper remedy. This library, that is the law, miscellaneous and historical departments, should all be made one great, growing interest in the territory. Already it is one chief attraction and subject of praise and wonder to all strangers who visit the capital, and is the pride of Montana's people as they point to it, and realize that its present proportions and extent far exceed like enterprises and departments in many of the states. This one interest in Montana should be nursed and made to grow by the legislature. I trust you will open a liberal hand to its encouragement.

There are a number of great interests, full of promise and much of the spirit of enterprise and investment of capital, all over this territory; and yet there is no conflict of interests or antagonizing forces in the industries and striving development of this country. In the natural conformation of the territory there is, and must for ever be, eastern, western, northern and southern divisions of this government. Nevertheless, these parts are one common whole, and one government. You are the trusted

divisions of this government. Nevertheless, these parts are one common whole, and one government. You are the trusted agents to consider and act for all, and not for a part of the people; and no such thing as class legislation or sectional measures will receive your favor, except as may be for the public good. Each part of the territory must help support the other, and so every separate interest and industry must hold up the other. I shall gladly help and co-operate with you in everything for the honor and for the good of this people.

POSTHUMOUS POEM.

[The New York World has secured a copy of the fellowing poem, which was written by Henry W. Longfellow while a professor at Harvard college, fifty-one years ago, and presented to Mrs. Margaret Brewster, who was at that time visiting at the house of a Mrs. Craigle, where the poet then had ledgings. There can be little doubt as to the genuineness of the poem] TWO OFFERINGS

The day was Easter; like a dying god in pain
The organ groaned aloud;
The while the sunlight, chastened by the windows Fell on a motley crowd;

On lord and peasant, prince and parish, who bore, As down the attie they troe, As they had prospered, each according to his store, An Easter gift to God,

Among them walked a lordly prince of lineage fair, With lip of ecornful curl, Who laid upon the altar with a lofty air A priceless Indian pearl.

There also came a woman, in whose face was seen Shame, Sin and Sorrow blent; woman of the town, a second Magdalen-An hariot penitent.

Who seemed the figure of incarnate Sin and Vice As down the aisle she reeled, And on the altar laid, beside the pearl of price, A lily of the field.

The priest blessed him who gave the pearl, said That God his soul might save,
But with contemptuous hand swept to the ground
the flower
The outcast harlot gave.

His plety was praised by bishop, i.rd and churi; "Twas God alone could teil That while he unto Him gave nothing but the peari, She gave her heart as well. Cambridge, April 10, 1838.

Do you feel dull, languid, low-spirited, life-less, and indescribably miserable, both physically and mentally; experience a sense of fuliness or bloating after eating, or of "gone-ness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent beadaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharpbiling, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your discase has become, the greater the number and diversity of symptoms. No matter what stage it has reached, Dr. Pierce's Golden Bedical Discovery will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Laungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, soone or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is squally efficacious in acting upon the Kidneys, and other excretory organs, cleanses. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.
